PROFILE

Level 3 IRATA Maintenance and Assembly Supervisor, with more than 17 years of experience in the industrial area, on oil platforms. Specialist in inspections, boilermaking, anchoring systems, development of rope access means. Working on the implementation of procedures, pricing rate and reports for control of rope access equipment, rope access system, Height Rescue and First Aid.

Mechanical technician with several courses that permeate the area, making me a versatile professional, with readiness with new technologies.

Adaptable, with strong teamwork, team management, proactivity and leadership skills. Available to travel and for flexible work schedule.
