

Roman Danko

Rope Access Technician

21.03.1986

Experienced rope access technician with 17 years of expertise working at heights. This extensive experience helps me adapt to new projects and tackle more complex tasks and challenges using a variety of techniques and skills. I am seeking opportunities in the wind turbine sector, where I see innovation, growth potential, environmental care, and a future that aligns with my values. I am motivated to perform work that not only provides a stable income but also carries a sense of mission and purpose, and I believe the wind turbine sector aligns perfectly with these values.
