CURRICULUM VITAE

Date of Birth	29/01/1980
Sex	Male
Height / Weight	183 Cm. / 70 Kg.
Nationality	Thai
Region	Buddhism
Marital Status	Single
Address	5 Radbumroong Rd. Soi 12 Noernphra Muang Rayong 21000

ACADEMIC QUALIFICATIONS

- **Vocational**
Rayong Technical College
Vocational certificate in Civil
- **High Vocational**
Rayong Technical College
High Vocational certificate in Civil

Computer Program

- İ Microsoft Word, Excel, Power Point, Visio
- İ Adobe Photoshop
- İ Adobe Lightroom
- İ Nikon Capture NX 2

Other Skill

- İ Freelance Photographer: Landscape, Interior, and Architecture.
- İ Locksmith, Immobilizer System, Car Programming remote, Add new Key, All key lost.

TECHNICAL QUALIFICATIONS / PROFESSIONAL MEMBERSHIP

- İ **GWO** Winda ID WK380349TH
- İ **IRATA 3/59056**
- İ **Eddy Current Testing Level II**
- İ **CSWIP 3.1 Welding Inspector Attendance**
- İ **CSWIP 3.0 Visual Welding**
- İ **BOSIET / FOET**
- İ **Visual Testing Level II**
- İ **Ultrasonic Testing Level II**
- İ **Penetrant Testing Level II**
- İ **Magnetic Particle Testing Level II**
- İ **Radiographic Testing Level II**

TRAINING COURSES

- İ **GWO** – Pattaya International Service Center
- İ **Wind Turbine Blade and Fiberglass Repair** – Siemens Gamesa, Korat,Thailand
- İ **Wind Turbine Blade Repair** – Siemens Korat,Thailand.
- İ **GE Mentor EM- Eddy Current Testing** - CVM Group / Bureau Veritas /Metcon NDT
- İ **CSWIP 3.1** - TWI Thailand
- İ **Drops / Lifting Gear** - Core-IRM Singapore
- İ **IRATA** - K2 Singapore / Dacon Inspection/ Dive marine /PISTC/SIWA Testing.
- İ **CSWIP 3.0** - TWI Mermaid Training & Technical Services .,Ltd
- İ **FOET** - Pattaya International Service Center/Mogit Industry Training.
- İ **UT II/ MT II/ PT II/ ET II** - NDT Training Center.
- İ **Automatic Ultrasonic Testing** [ROTO scan]Equipment - RTD Quality Services
- İ **Krautkramer USM 25 DAC** Course 16 Hr. - United Inspection Services
- İ **Radiographic Testing II** Course 65 Hr. - United Inspection Services/DNDT
- İ **Adult First Aid CPR / AED All Age** – Beat CPR Training Center.

EXPERIENCES IN BRIEF

- İ Over 19 years experience in **QC and NDT Inspector** in Wellhead Platforms oil & gas Offshore-Onshore, Piping, Pipeline, Gas Turbine, Power Plant, Steel Structure, Ship Repair, Refinery Plant Shutdown Inspection,. Knowledge standard code ANSI B.31.3 /API RP 2X/API 1104/AWS D1.1/AS Standard
- İ Over 11 years experience in **Multi-Discipline NDT Rope Access / Wind Turbine/ Drops Survey / Lifting Gear / Derrick inspection / Bolts check** on jack-up rig, land rig, tender barge, Wellhead Platforms oil & gas Offshore, Onshore gas plant and Wind Turbine farm.

REFERENCE COMPANY

CURRENT POSITION

Jan/2024-Present

Company :	Prompt NDT & Inspection
Client :	Shelf Drilling Enterprise
Project :	Rig move Inspection / Welding and re-Painting / 6M Crane Inspection
Position :	Rope Access Multi-Skill <Offshore>
Responsibility :	<ul style="list-style-type: none"> - Coordinator with drilling planner and marine planner. - Prepare Task Base Risk Assessment / Rescue plan and work permit. - Responsible for supervise the team works in accordance with rope access policies and rope access code of practice. - Perform to re-painting / corrosion remover from stbd legs and re-painting. - Carry out for MPI on drill tools stuff and critical area on top drive. - Carry out for ECI on Catheads A/B , OAC , Finger board , MPB and 3x deck cranes. - Carry out for UTG on S-pipe , Stand pipe , HP line , Choke & Kill manifold , Degasser , Mud separator and Dampener - Supervise for rope access welding on runway beam above shale shaker and spot repair on stbd leg bracing. - Carry out for crane inspection under PTTEP crane thai law standard. - Carry out for Derrick bolts checked inspection as drawwork side. - Perform to daily operation reports / NDT inspection report.

Oct/2023- Oct/2023

Company :	Siwa Testing & Consultant.
Client :	PTTEP Erawan Platform.

Project : Well casing / CVI / RVI

Position : **Rope Access Supervisor <Offshore>**

- Responsibility :**
- Performs to risk assessment / JSA and Rescue plan document.
 - Toolbox talk / Pre-checklist.
 - Inspects and verifies rope access systems with components before use.
 - Demonstrated and briefing with client safety officer before start the job.
 - Setup rope / installed anchor point for rope tech carry out Close up Visual / UTM on pipe casing with conductor and Riser.
 - Responsible for supervise the team works in accordance with rope access policies and rope access code of practice.
 - Perform to daily site reports / Log hour / Site Inspection.

Sep/2023- Sep/2023

Company : Applus+K2 Singapore Pte.,ltd

Client : Energy Drilling T-15

Project : Drops Inspection

Position : **IRATA 3 Drops Inspector <Offshore >**

- Responsibility :**
- Daily check rope gears.
 - Carry out for drops inspection as primary / secondary and securing Device and the following potentials for dropped objects.
 - Fixed and installed which item was founds un-corrected securing.

Aug/2023- Aug/2023

Company : Prompt NDT & Inspection

Client : Shelf Drilling Enterprise

Project : Texas Deck Inspection

Position : **Rope Access Multi-Skill <Offshore>**

- Responsibility :**
- Coordinator with drilling planner / OIM.
 - Prepare Task Base Risk Assessment / Rescue plan and work permit.
 - Responsible for supervise the team works in accordance with rope access policies and rope access code of practice.
 - Remove paint on texas deck load bearing area using needle gunning
 - Carry out for MPI inspection on texas deck load bearing area connection.
 - Visual inspection on new base plate installed on texas deck.
 - Perform to daily operation reports to client.

Jul/2023- Jul/2023

Company : Siwa Testing & Consultant.

Client : PTTEP Erawan Platform.

Project : Well casing / CVI / RVI

Position : **Rope Access Supervisor <Offshore>**

- Responsibility :**
- Performs to risk assessment / JSA and Rescue plan document.
 - Toolbox talk / Pre-checklist.
 - Inspects and verifies rope access systems with components before use.
 - Demonstrated and briefing with client safety officer before start the job.
 - Setup rope / installed anchor point for rope tech carry out Close up Visual / UTM on pipe casing with conductor and Riser.
 - Responsible for supervise the team works in accordance with rope access policies and rope access code of practice.
 - Perform to daily site reports / Log hour / Site Inspection.

Jun/2023- Jun/2023

Company : Siwa Testing & Consultant.

Client : PTTEP Platong Platform.

Project : Shutdown / Flare Re-Coating

Position : **Rope Access Supervisor <Offshore>**

- Responsibility :**
- Performs to risk assessment / JSA and Rescue plan document.
 - Daily toolbox talk and all gear checklist.
 - Inspects and verifies rope access systems with components before use.
 - Demonstrated and briefing with client safety officer /Project site before start the job.
 - Setup rope / installed anchor point for rope tech carry out for brushing surface the vertical HP/LP flare piping and flare vertical structure.
 - Perform to primer / immediately and top coating on the vertical HP/LP and vertical flare structure.
 - Responsible for supervise the team works in accordance with rope access policies and rope access code of practice.
 - Perform to daily site reports / Log hour / Site Inspection.

May/2023- May/2023

Company : Siwa Testing & Consultant.

Client : PTTEP Satun Platform.

Project : Well casing / CVI

Position : **Rope Access Supervisor <Offshore>**

- Responsibility :**
- Performs to risk assessment / JSA and Rescue plan document.
 - Toolbox talk / Pre-checklist.
 - Inspects and verifies rope access systems with components before use.
 - Demonstrated and briefing with client safety officer before start the job.
 - Setup rope / installed anchor point for rope tech carry out Close up Visual / UTM on pipe casing and conductor.
 - Responsible for supervise the team works in accordance with rope access policies and rope access code of practice.
 - Perform to daily site reports / Log hour / Site Inspection.

Mar/2023- Apr/2023

Company : Siwa Testing & Consultant.

Client : PTTEP Satun Platform.

Project : Riser Inspeccion.

Position : **Rope Access Supervisor <Offshore>**

- Responsibility :**
- Performs to risk assessment / JSA and Rescue plan document.
 - Toolbox talk / Pre-checklist.
 - Inspects and verifies rope access systems with components before use.
 - Demonstrated and briefing with client safety officer before start the job.
 - Setup rope / installed anchor point for rope tech carry out Close up Visual / UTM on riser.
 - Responsible for supervise the team works in accordance with rope access policies and rope access code of practice.
 - Perform to daily site reports / Log hour / Site Inspection.

Feb/2023- Mar/2023

Company : Siaptek Thailand.

Client : Borr Drilling Skald

Project : 6 Monthly Annual LGI Inspection

Position : **Team Leader <Offshore>**

- Responsibility :**
- Prepare PTW / JSA / Rescue plan.
 - Morning meeting with Borr Drilling Supervisor class.
 - Planning / coordinator / control reports and supervise team.
 - Tool box talk with siaptek team.
 - Describe and Photograph each equipment item by location within Inspection Area / Zone.
 - To ensure that all rope access activities are carried out safety and efficiently accordance with company and statutory regulations and where applicable perform to Inspection.

- Ensure that work area is safe to carry out inspection with rope access activities.
- Maintain the rope access equipment ensuring that the certification is kept up to date.
- Ensure for NDT/LGI equipment function tests are performed according to the procedure and any faulty equipment is detailed.
- Perform to pre/post for load tested 11 Winches.
- Carry out work with in a timely and efficient manner in order to meet deadlines, changing priorities when the situation requires.
- All relevant paper work of inspection report / daily reports are ensure to completed.

Dec/2022- Feb/2023

Company : Siaptek Thailand.

Client : Borr Drilling Thor

Project : 6 Monthly Annual Inspection

Position : **Team Leader <Offshore>**

- Responsibility :**
- Prepare PTW / JSA / Rescue plan.
 - Morning meeting with Borr Drilling Supervisor class.
 - Planning / coordinator / control reports and supervise team.
 - Tool box talk with siaptek team.

 - Responsible for supervise the team works in accordance with rope access policies and rope access code of practice.
 - Perform to daily site reports / Log hour / Site Inspection.

Aug/2022- Sep/2022

Company : Siwa Testing & Consultant.

Client : PTTEP Funan Platform.

Project : Topside Structure, Well casing and Riser CVI.

Position : **Rope Access Supervisor <Offshore>**

- Responsibility :**
- Performs to risk assessment / JSA and Rescue plan document.
 - Toolbox talk / Pre-checklist.
 - Inspects and verifies rope access systems with components before use.
 - Demonstrated and briefing with client safety officer before start the job.
 - Setup rope / installed anchor point for rope tech carry out visual+

- UTM Riser and Conductor.
- Responsible for supervise the team works in accordance with rope access policies and rope access code of practice.
- Perform to daily site reports / Log hour / Site Inspection.

Jul/2022- Aug/2022

Company : Siwa Testing & Consultant.

Client : PTTEP Platong Platform.

Project : Topside Structure, Well casing and Riser CVI.

Position : **Rope Access Supervisor <Offshore>**

- Responsibility :**
- Performs to risk assessment / JSA and Rescue plan document.
 - Toolbox talk / Pre-checklist.
 - Inspects and verifies rope access systems with components before use.
 - Demonstrated and briefing with client safety officer before start the job.
 - Setup rope / installed anchor point for rope tech carry out visual+ UTM Riser and Conductor.
 - Responsible for supervise the team works in accordance with rope access policies and rope access code of practice.
 - Perform to daily site reports / Log hour / Site Inspection.

Apr/2022- May/2022

Company : Siwa Testing & Consultant.

Client : PTTEP Arthit Platform.

Project : SS Piping Survey.

Position : **Rope Access Supervisor <Offshore>**

- Responsibility :**
- Performs to risk assessment / JSA and Rescue plan document.
 - Toolbox talk / Pre-checklist.
 - Inspects and verifies rope access systems with components before use.
 - Setup rope / installed anchor point for rope tech carry out visual SS piping process with overview / close-up photos.
 - Responsible for supervise the team works in accordance with rope access policies and rope access code of practice.

Mar/2022- Apr/2022

Company : Thai NDT Co.,Ltd

Client : Chevron / South Pailin Field

Project : CVI Inspection.

Position : **Rope Access Supervisor <Offshore>**

- Responsibility :**
- Performs to risk assessment / JSA and Rescue plan.
 - Toolbox talk / Start work checked.
 - Inspects and verifies rope access systems with components before use.
 - Setup rope / installed anchor point for rope tech carry out visual with UTM as well slot as required.
 - Responsible for supervise the team works in accordance with rope access policies and rope access code of practice.

Mar/2022- Mar/2022

Company : Ocean21 Offshore Sdn Bhd

Client : Shelf Drilling Enterprise.

Project : Snubbing Rig Up.

Position : **Rope Access Team Leader <Offshore>**

- Responsibility :**
- Perform to permit for work, check list, JSA, risk assessment.
 - To ensure that all rope access activities are carried out safety and efficiently accordance with company and statutory regulations and where applicable perform NDT Inspection.
 - Ensure that work area is safe to Carry out NDT and rope access activities.
 - Maintain the rope access equipment ensuring that the certification is kept up to date.
 - Carry out ECI / MPI / DPI / VT as client required.
 - Assistance electrician to installed a CCTV on derrick.
 - Installed the 2x wind wall as Fwd with hauling system 3:1 rope technique.
 - Carry out work with in a timely and efficient manner in order to meet deadlines, changing priorities when the situation requires.
 - All relevant paper work of NDT report are ensure to completed.

Nov/2021- Dec/2021

Company : Prompt Solution Co.,Ltd

Client : PTT PRP / ERP Riser

Project : RBI / CUI / CUS

Position : **Rope Access Supervisor <Offshore>**

- Responsibility :**
- Performs to risk assessment / JSA and Rescue plan Permit to work.
 - Inspects and verifies rope access systems and components before use.
 - Setup rope for technicians to perform UTM and visual piping.
 - Performs to visual insulation piping condition(CUI)
 - Performs to visual pipe support(CUS).

- Carry out for Eddy current inspection the swing rope pad eyes.
- Prepared and combine all reports submit to the client.

Jul/2021- Aug/2021

Company : MSC

Client : PTT Riser Platform / PRP-ERP

Project : Free-Fall Lifeboat Revamp

Position : Rope Access Mechanic / NDT <Offshore>

- Responsibility :**
- Carry out to installed the motor for winch of davit arm.
 - Carry out to installed the water hose to water bag for load test.
 - Perform to tighten a quick release knot for drain hose.
 - Carry out to Eddy current inspection on davit and structure after load tested.
 - Perform to Penetrant inspection on critical weldments and surface of life boat hook
 - Carry out to washing and cleaning the life boat.
 - Perform the all NDT report.

May/2021- Jun/2021

Company : Ocean21 Offshore Sdn Bhd

Client : Shelf Drilling Enterprise.

Project : Lifting Gear Inspection / NDT

Position : Rope Access Supervisor <Offshore>

- Responsibility :**
- Perform to permit for work, check list, JSA, risk assessment.
 - To ensure that all rope access activities are carried out safety and efficiently accordance with company and statutory regulations and where applicable perform LGI and NDT Inspection.
 - Ensure that work area is safe to Carry out LGI/NDT and rope access activities.

 - Carry out work with in a timely and efficient manner in order to meet deadlines, changing priorities when the situation requires.
 - All relevant paper work of NDT report are ensure to completed.

Mar/2021- Apr/2021

Company : MSC

Client : PTT Riser Platform / PRP-ERP

Project : Free-Fall Lifeboat Revamp

Position : **Rope Access Mechanic / NDT <Offshore>**

- Responsibility :**
- Carry out to remove suspension block , sheave , wire sling and pins with rope access and perform VT/MT inspection.
 - Perform to drain hydraulic oil from lifeboat system and remove all flexible hydraulic hose.
 - Perform to remove 4 hydraulic cylinder and 8 pins from 2 lifeboat davits.
 - Carry out to remove limit switch and motor winch from lifeboat davits.
 - Perform to eddy current inspection on critical area as lifeboat davits and lifeboat structure support.
 - Carry out to bolt torque M20 , M30 grade 8.8 on lifeboat davits.
 - Perform NDT and torque bolts reports to client.

Feb/2021- Mar/2021

Company : Ocean21 Offshore Sdn Bhd

Client : Shelf Drilling Chaophraya

Project : Strip light replacement / Removed grease Dolly tract

Position : **Rope Access Supervisor <Offshore>**

- Responsibility :**
- Perform to permit for work, check list, JSA, risk assessment.
 - Daily meeting with rig crew for the jobs planning.
 - Perform to rope access with strip light for replace on the derrick and communicated with chief electrician.
 - Perform to rope access for removed grease on dolly tract.

Nov/2020- Dec/2020

Company : Ocean21 Offshore Sdn Bhd

Client : Shelf Drilling Chaophraya

Project : Cable pulling <Fiber optic / Cat7> / MPI Inspection

Position : **Rope Access Supervisor <Offshore>**

- Responsibility :**
- Perform to permit to work, check list, JSA, risk assessment.
 - Daily meeting with rig crew for the jobs planning.
 - Perform to run the fiber optic cable and cat7 from 4th accommodation sever room to warehouse and from warehouse to Sack store / SCR / main deck / cantilever / dog house.
 - Perform to MPI Service platform x1 , BOP lifting bolts stud x31 , Derrick bolts x10 , Lifting beam x1 , IBOP x1.

Oct/2020- Nov/2020

Company : Prompt Solution Co.,Ltd

Client : PTT PRP / ERP Riser

Project : RBI / CUI / CUS

Position : **Rope Access Supervisor <Offshore>**

Responsibility :

- Performs to risk assessment / JSA and Rescue plan Permit to work.
- Inspects and verifies rope access systems and components before use.
- Setup rope for technicians to perform UTM and visual piping.
- Perform to visual insulation piping condition.
- Perform to visual pipe support.
- Prepare all reports submit to the client.

Sep/2020- Oct/2020

Company : Total Rope Access Service

Client : PTT PRP-ERP

Project : Free fall life boat maintenance and inspection

Position : **Project supervisor /Rope Access Supervisor <Offshore>**

Responsibility:

- Performs Analyze the job site and manage manpower onsite.
- Meeting with the client and set up plan / scope of work.
- Prepare summary reports / equipment list submit to client.

Aug/2020- Sep/2020

Company : Thai NDT Co.,Ltd

Client : Chevron / South Pailin Field

Project : CVI / RVI / GVI

Position : **Rope Access Supervisor <Offshore>**

Responsibility :

- Performs to risk assessment / JSA and Rescue plan.
- Toolbox talk / Start work checked.
- Inspects and verifies rope access systems and components before use.
- Setup rope / install anchor point.
- Advice technic to technicians
- Perform rope access activities.
- Works in accordance with team rope access policies and rope Access code of practice.

Jun/2020- Jun/2020

Company : Siaptek Thailand

Client : Shelf Drilling Chaophraya

Project : BOP Inspection

Position : **Multi-NDT Inspector**

- Responsibility :**
- Perform to permit to work, check list, JSA, risk assessment.
 - Daily meeting with rig crew for the jobs plan.
 - Perform ECI / MPI inspection for Access ladder stair support , Pad eye , Stand pipe clamps , Stand pipe valve , BOP , rotary table , Liner clamps , IBOP.
 - Perform NDE reports.

Apr/2020- May/2020

Company : Siaptek Thailand

Client : Shelf Drilling Scepter

Project : Lifting Gear / Drops survey

Position : **Irata3 Team Leader**

- Responsibility :**
- Perform to permit to work, check list, JSA, risk assessment, tools box.
 - Perform to LGI, ECI, Drops reports, daily report.
 - Planning, discuss with marine planner.
 - Carry out with rope access with ECI , LGI, Drops survey and visual inspection.

Apr/2020- Apr/2020

Company : Wind Innovation.

Client : Gunkul Engineering.

Project : Tower cleaning.

Position : **Irata3 Technician.**

- Responsibility :**
- Perform all chemical cleaner with equipment tools.
 - Perform all rope access gears.
 - Carry on wind tower cleaning from under hub to the ground.

Mar2020- Mar/2020

Company : Applus+K2 Singapore Pte.,ltd

Client : Modern Energy Management

Project : External blade inspection <Close-up>

Position : **Blade Technician**

- Responsibility :**
- Perform rope access for close-up visual inspection on external A,B,C blade.
 - Perform to Lightning system circuit from the hub to blade tip and blade tip to the ground.

Feb/2020- Feb/2020

Company : Total Rope Access Service
Client : 4 Season Building
Project : Window Cleaning / Remove Sticker
Position : **Rope Access Supervisor**

- Responsibility :**
- Toolbox talk.
 - Site survey area operation / anchor point location.
 - Setup rope / anchor point / rope protector.
 - Advice technic to technician.
 - Perform to communicated.

Nov/2019- Nov/2019

Company : Applus+K2 Singapore Pte.,ltd
Client : Edrill 1
Project : Anchor Wire Inspection
Position : **Rope Access Supervisor <Offshore >**

- Responsibility :**
- Toolbox talk / Rescue plan / Risk Assessment.
 - Carry out with rope access to perform anchor wire inspection, Measurement, visual condition and damage.

Oct/2019- Oct/2019

Company : Axess Singapore Pte Ltd.
Client : High Arctic Energy Service.
Project : Drops Survey Inspection
Position : **Rope access drops surveyor <Papua New Guinea>**

- Responsibility :**
- Daily meeting, toolbox talk, planning jobs.
 - Carry out for drops inspection on land rig.
 - Perform to general and close-up photos on the items list.
 - Removed some the double nuts and replacement the nyloc nuts.

Sep/2019- Oct/2019

Company : Total Rope Access Service
Client : PTTOR
Project : Jetty legs inspection
Position : **Rope Access Supervisor**

- Responsibility :**
- Toolbox talk / Rescue plan / Risk Assessment.
 - Site survey area operation / anchor point location.
 - Setup rope / anchor point / deviation / rope protector.
 - Advice technic to technician.
 - Perform to standby for rescue.

Jul/2019- Aug/2019

Company : Applus+K2 Singapore Pte.,ltd

Client : Modern Energy Management

Project : External blade inspection <Close-up>

Position : **Blade Technician.**

- Responsibility :**
- Perform rope access for close-up visual inspection on external blade A,B,C.
 - Lightning system circuit from the hub to blade tip and blade tip to the ground.

Jul/2019- Jul/2019

Company : Applus+K2 Singapore Pte.,ltd

Client : Seadrill T-15

Project : Drops Object

Position : **Drops Surveyor <Offshore >**

- Responsibility :**
- Carry out to survey the general item above there worker and operate In a safe and controlled condition, within design, environmental limit.
 - Ensure the safety devices are in place and function.
 - Ensure the primary securing and secondary securing devices still in good condition and good to securing.
 - Carry out to take photos as previous report.

Jun2019- Jul/2019

Company : BV-Bureau Veritas Thailand

Client : Mubadala Petroleum <Jasmine Field>

Project : B5 AIM Topside Inspection 2019/2

Position : **Rope Access NDE Inspector <Offshore >**

- Responsibility :**
- Tool box talk / JSA rescue plan and work Permit.
 - Perform isometric drawing / PA&ID.
 - Perform rope access rescue set.
 - Perform to drill insulation for installed the plug.
 - Carry out with rope access to wrapping riser protected.
 - Carry out with rope access to GVI boat landing and measurement

For damaged area.

May/2019- May/2019

Company : Applus+K2 Singapore Pte.,ltd

Client : Sapura Energy T-18

Project : OAC Crane Removal

Position : **Rope Access Derrick Builder <Offshore >**

Responsibility :

- Perform to removed bolts and nyloc nuts at bracket of control side / Un-control side and the OAC bridge from derrick.
- Perform to installed the new control side/un-control side and The OAC bridge to the derrick.
- Perform to adjust and alignment of the both side.
- Perform to replace all bolts and nyloc nuts and bolts torque.
- Carry on Eddy current as the critical area after load tested.
- Carry on MPI on TDS ling belts.

Apr/2019- Apr/2019

Company : Applus+K2 Singapore Pte.,ltd

Client : Sapura Energy T-18

Project : Lifting Gear Inspection 6 monthly

Position : **Multi-Discipline Inspector <Offshore >**

Responsibility :

- Perform to visual, function tested all of lifting items.
- Carry out for Eddy current / MPI testing.
- Perform rope access gears.
- Perform to written serial number/ SWL.
- Perform to replace the color code.

Mar2019- Apr/2019

Company : BV-Bureau Veritas Thailand

Client : Mubadala Petroleum <Jasmine Field>

Project : B5 AIM Topside Inspection 2019/1

Position : **Rope Access NDE Inspector <Offshore >**

Responsibility :

- Tool box talk / JSA rescue plan and work Permit.
- Perform isometric drawing / PA&ID.
- Perform previously reports.
- Perform rope access gears and UTM device.
- Perform to drill insulation for installed the plug.
- Carry out to general visual inspection all platform.
- Perform installed rubber wedge into the conductors.
- Prepare to updated UTM data base and UTM report, GVI report.

Jan/2019- Jan/2019

Company : BV-Bureau Veritas Thailand

Client : PTTEP International Zawtika

Project : Flare Inspection 2019

Position : **Rope Access NDE Inspector <Myanma Offshore>**

- Responsibility :**
- Tool box talk and rescue plan.
 - Perform visual inspection on flare tip assembly and general structure.
 - Perform PT on flare tip body, frame tap, wind shield support Upper and lower, long seam, pad eyes. and band break weldment.
 - Perform drill hole 10 mm. for stop the cracks found and confirmed PT around the holes.
 - Perform NDE and visual report combine to client.

Nov2018- Nov/2018

Company : Siaptek Thailand.

Client : PTT PRP (PTT Riser Platform)

Project : Crane Inspection <Thai Raw>

Position : **Crane Inspector <Offshore>**

- Responsibility :**
- Tool box talk / Safety meeting.
 - Perform PT on all sheaves pins body.
 - Perform FMT/MT on main gear, fry gear, luff gear, pinion gear and swing gear box motor.
 - Perform ET on boom head weldment, fry jib weldment, A-frame structure and band break weldment.
 - Perform NDE report, Daily progress to client.

Oct/2018- Oct/2018

Company : Thai NDT Co.,Ltd

Client : PTTEP GBS

Project : 5 Years Topside inspection 2018

Position : **Rope Access NDE Inspector <Offshore>**

- Responsibility :**
- Understanding specifications, JSA and Rescue plan /NDT procedure.
 - Toolbox talk before start the job.
 - Performs rope access gears and assistance L3 for setup anchor point.
 - Perform calibration eddy current and carry out for inspection.
 - Perform camera for visual inspection.
 - Perform ET/VT and summary report to FE Supervisor.

Sep/2018- Oct/2018

Company : Thai NDT Co.,Ltd

Client : PTTEP GBN

Project : 5 Years Topside inspection 2018

Position : **Rope Access NDE Inspector <Offshore>**

Responsibility :

- Understanding specifications, JSA and Rescue plan /NDT procedure.
- Toolbox talk before start the job.
- Performs rope access gears and assistance L3 for setup anchor point.
- Perform calibration eddy current and carry out for inspection.
- Perform camera for visual inspection.
- Perform ET/VT and summary report to FE Supervisor.

Jul/2018- Aug/2018

Company : BV-Bureau Veritas Thailand

Client : Mubadala Petroleum <Manora Field>

Project : Topside piping inspection campaign 2018

Position : **Rope Access NDE Inspector <Offshore>**

Responsibility :

- Tool box talk / JSA rescue plan and work Permit.
- Perform isometric drawing / PA&ID.
- Perform previously reports.
- Perform rope access gears and UTM device.
- Perform to drill insulation for installed the plug.
- To general visual inspection all platform.
- Perform installed rubber wedge into the conductors.
- Prepare to updated UTM data base and UTM report, GVI report.

Feb/2018- Feb/2018

Company : Axess Singapore Pte Ltd.

Client : Transocean Siam Driller (Odin)

Project : CCE & NDT Inspection

Position : **Multi-Discipline Inspector <Offshore>**

Responsibility :

- Daily meeting progress, planning for inspection.
- Ensure performs rope access kits and NDT equipment.
- Perform to visual checked OAC crane and function tested.
- Carry out ECI, UTM, MPI for Drill tools stuff and Crane Inspection.
- To prepare all reports to client.

Jan/2018- Jan/2018

Company : BV-Bureau Veritas Thailand

Client : PTTEP International Zawtika

Project : 5 Years Structure Inspection

Position : **Rope Access / NDE Inspector <Myanma Offshore>**

Responsibility :

- Understanding specifications of RA and ECI procedure.
- Ensure performs Rope access and ECI equipment.
- Perform visual checked condition, surface, welded on structure platforms and flare boom tips
- Performs Eddy Current surface inspection on structure platforms and flare boom structure.
- Performs PT confirmed cracks on HP and LP flare tips.
- To prepare NDT reports and daily report submit to client.

Nov/2017- Nov/2017

Company : Axess Singapore Pte Ltd.

Client : Transocean Ao Thai (Mist)

Project : Visual and ECI Inspection

Position : **NDT Inspector <Offshore>**

Responsibility :

- Daily meeting progress, planning for inspection.
- Performs visual / measurement / dimensions check for the chains .
- Carry out ECI for BOP test stump welds base and 4 pad eyes.
- To prepare Visual / NDT reports and certify the result.

Oct/2017- Nov/2017

Company : Axess Singapore Pte Ltd.

Client : Transocean Ao Thai (Mist)

Project : Derrick Bolt check / Rig Move Inspection

Position : **Multi-Discipline Inspector <Offshore>**

Responsibility :

- Daily meeting progress, planning location for inspection.
- Ensure performs Rope access and NDT equipment.
- Perform visual inspection top drive dolly bolt check.
- Carry out ECI, MPI and UTM for TDS Link tilt bracket, main shaft, TDS assembly, Safety valve, Gray valve, IBOP, Elevator, Push arm, Mud tank, Cement tank, Surge tank, Mud / Cement collector.
- To prepare NDT reports and certify the result.

Oct/2017- Oct/2017

Company : J.S.T.

Client : Mubadala Petroleum <Jasmine Field>

Project : B5 BYA Casing surface inspection.

Position : **NDT Inspector <Offshore>**

Responsibility :

- Daily meeting progress, planning and location for inspection.
- Carry out UTM for inspection of 21 casing surface without gridline and 3 casing with gridline inspection.
- Perform depth gauge Measurement for casing heavy corroded area.
- Generate location drawing of areas inspected.
- To prepare UTM reports and certify the result.

Aug/2017- Aug/2017

Company : Axess Singapore Pte Ltd.

Client : Transocean Ao Thai

Project : Derrick / Drops & NDT Inspection

Position : **Multi-Discipline Inspector <Offshore>**

Responsibility :

- Daily meeting progress, planning and location for inspection.
- Ensure performs rope access and NDT equipment.
- Perform derrick inspection and bolt check.
- Perform drops object inspection on derrick.
- Carry out ECI, MPI for drawwork, Hydraulic Motor Splines crane, TDS Link Tilt Cylinder Clevis.
- Perform for takeout OAC Sheave bearing broken and replace.
- To prepare NDT reports and certify the result.

Jul/2017- Jul/2017

Company : Axess Singapore Pte Ltd.

Client : Transocean Siam Driller

Project : Derrick / Drops & Rig Move Inspection

Position : **Multi-Discipline Inspector <Offshore>**

Responsibility :

- Understanding specifications RA and NDT procedure.
- Daily meeting progress, planning and location for inspection.
- Perform inspection load test x4 winch 5 tons.
- Ensure performs rope access and NDT equipment.
- Perform derrick inspection and bolt check.
- Perform drops object inspection on derrick.
- Carry out ECI, UTM, MPI for HP cement , Master Bushing , Rotary Table , BOP Hoist , Adapter Ring , Drilling Bowls.
- To prepare NDT reports and certify the result.

Jun/2017- Jun/2017

Company : Siwa Testing & Consulting.
Client : PTTEP GBN
Project : GBN-WRK-1530 To permanent repair on flare platform top deck structure
Position : **Rope Access Rigging/NDE Inspector <Offshore>**

Responsibility :

- Understanding specifications RA and NDT procedure.
- Daily meeting progress, planning and tools box talk.
- To prepare rigging equipments / control manriding winch for personal up/down and transfer equipments.
- Ensure performs rope access and NDT equipment.
- Carry out MPI before and after welded repaired on top side deck.
- To prepare NDT reports and certify the result.

Apr/2017- Apr/2017

Company : Axess Singapore Pte Ltd.
Client : Transocean Siam Driller
Project : Lifting Gear Inspection
Position : **Multi-Discipline Inspector <Offshore>**

Responsibility :

- Understanding specifications RA and NDT procedure.
- Daily meeting progress, planning and location for inspection.
- Generate location drawing of areas inspected. Ensure performs rope access and NDT equipment.
- Carry out ECI, UTM, MPI for Lifting Gear Inspection.
- To prepare NDT reports and certify the result.
- Repaired painting and perform coating.

Sep/2015- Oct/2015

Company : BV-Bureau Veritas
Client : Mubadala Petroleum <Jasmine Field>
Project : Lifting Gear Inspection 2017
Position : **NDT Inspector <Offshore>**

Responsibility :

- Understanding specifications of LGI and NDT procedure.
- Perform visual checked condition, surface, welded, S/N, SWL, WLL, Brand, Size.
- Performs Eddy Current for basket, container Pad eyes and performs MPI for master link, Shackle, Trolley, Pulley, Snatch Block.
- Performs color code and paint on item.
- To prepare NDT reports and certify the result.
- Repaired painting and perform coating.

Feb/2017- Mar/2017

Company : Axess Singapore Pte Ltd.

Client : Transocean Ao Thai

Project : Lifting Gear Inspection

Position : **Multi-Discipline Inspector <Offshore>**

Responsibility :

- Understanding specifications RA and NDT procedure.
- Daily meeting progress, planning and location for inspection.
- To prepare and compile drawing sketch.
- Ensure performs rope access and NDT equipment.
- Carry out ECI, UTM, MPI for Lifting Gear Inspection.
- To prepare NDT reports and certify the result.
- Repaired painting and perform coating.

Feb/2017- Feb/2017

Company : Axess Singapore Pte Ltd.

Client : Transocean Siam Driller

Project : Crane inspection and NDT drill tools stuff

Position : **Multi-Discipline Inspector <Offshore>**

Responsibility :

- Understanding specifications RA and NDT procedure.
- Daily meeting progress, planning and location for inspection.
- To prepare and compile drawing sketch.
- Ensure performs rope access and NDT equipment.
- Carry out ECI, UTM, MPI for Drill tools stuff and Crane Inspection.
- To prepare NDT reports and certify the result.

Nov/2016- Dec/2016

Company : J.S.T.

Client : Mubadala Petroleum <Jasmine Field>

Project : Topside piping inspection campaign 2016.

Position : **Multi-Discipline Inspector <Offshore>**

Responsibility :

- Tool box talk / JSA rescue plan and work Permit.
- Perform isometric drawing / PA&ID.
- Perform previously reports.
- Perform rope access gears and UTM device.
- Perform to drill insulation for installed the plug.
- To general visual inspection all platform.
- Perform installed rubber wedge into the conductors.
- Prepare to updated UTM data base and UTM report, GVI report.

Sep/2016- Oct/2016

Company : J.S.T.

Client : Mubadala Petroleum <Nong Yao Field>

Project : Topside piping inspection campaign 2016.

Position : **Multi-Discipline Inspector<Offshore>**

Responsibility :

- Tool box talk / JSA rescue plan and work Permit.
- Perform isometric drawing / PA&ID.
- Perform previously reports.
- Perform rope access gears and UTM device.
- Perform to drill insulation for installed the plug.
- To general visual inspection all platform.
- Perform installed rubber wedge into the conductors.
- Prepare to updated UTM data base and UTM report, GVI report.

Aug/2016- Aug/2016

Company : Core-IRM Pte.,Ltd. Singapore

Client : Transocean Andaman

Project : Rig Move Inspection

Position : **NDE Inspector <Offshore>**

Responsibility :

- Understanding specifications and NDT procedure.
- Daily meeting progress, planning and location for inspection.
- To prepare and compile drawing sketch.
- Ensure performs equipment.
- Carry out ECI, UTM,MPI for inspection ,BOP crane hoist, MPC crane, drill tools stuff, piping process and etc.
- To prepare NDT reports and certify the result.

Jun/2016- Jul/2016

Company : Core-IRM Pte.,Ltd Singapore

Client : Shelf Drilling Trident-15

Project : Rig Move NDT Inspection

Position : **NDE Inspector <Offshore>**

Responsibility :

- Understanding specifications and NDT procedure.
- Daily meeting progress, planning and location.
- To prepare and compile drawing sketch.
- Ensure performs equipment.
- Carry out ECI, ,MPI for inspection ,Backup post sampsons , All drill tools stuff, Top Drive, Pipe rack sampsons post, Smith Bracket.
- To prepare NDT reports and certify the result.

Apr/2016- May/2016

Company : Core-IRM Pte.,Ltd Singapore

Client : Transocean Andaman

Project : Annual NDT Inspection

Position : **NDE Inspector <Offshore>**

- Responsibility :**
- Understanding specifications and NDT procedure.
 - Daily meeting progress, planning and location for inspection.
 - To prepare and compile drawing sketch.
 - Ensure performs equipment.
 - Carry out ECI, UTM, MPI for inspection ,crane, drill tools stuff, piping process and etc.
 - To prepare NDT reports and certify the result.

Feb/2016- Apr/2016

Company : Core Tech Resources Pte.,Ltd Singapore

Client : Siemens Wind Power <Ko-rat Wind Turbine Farm>

Project : Blade Inspection Repair

Position : **Rope Access Blade Technician**

- Responsibility :**
- Understanding specifications RA and Wind Turbine procedure.
 - Daily meeting progress / tools box talking.
 - Prepare Rope access equipment.
 - Prepare Dino-tail ,Vortex Generator and tools for replacement on blade.
 - Checked weather atmosphere before start work.
 - Shut down switch and set up remote for turning gear locked.
 - Pitch blade on vertical position for RA vertical access.
 - Remove old Dino-tail ,cleaning surface and replace new Dino-tail on blade.
 - Prepare photo card and attached to client.

Jan/2016- Jan/2016

Company : Core-IRM Pte.,Ltd Singapore

Client : Transocean Ao Thai

Project : Rig Move Inspection

Position : **Multi-Discipline Inspector <Offshore>**

- Responsibility :**
- Understanding specifications and NDT procedure.
 - On daily basis, physically performing NDT of materials to determine, They meet established quality standards.
 - To prepare and compile drawing sketch.
 - Ensure performs equipment.
 - Carry out ECI, MPI, DPI, UTM for pad eyes ,Hydraulic Winch , Pipe Rack Sampson Post Stanchions ,elevator, power slip, tong arm, power tong, brine system and etc.

To prepare NDT reports and certify the result.

Dec/2015- Dec/2015

Company : Core-IRM Pte.,Ltd Singapore

Client : Transocean Andaman

Project : NDT Inspection

Position : **Multi-Discipline Inspector <Offshore>**

Responsibility :

- Understanding specifications and NDT procedure.
- On daily basis, physically performing NDT of materials to determine, They meet established quality standards.
- To prepare and compile drawing sketch.
- Ensure performs equipment.
- Carry out ECI, UTM for inspection ,Flay Sheave Support Structure Support before /after load tested.
- To prepare NDT reports and certify the result..

Nov/2015- Dec/2015

Company : Core-IRM Pte.,Ltd Singapore

Client : Transocean Ao Thai

Project : NDT Inspection

Position : **Multi-Discipline Inspector <Offshore>**

Responsibility :

- Understanding specifications and NDT procedure.
- On daily basis, physically performing NDT of materials to determine, They meet established quality standards.
- To prepare and compile drawing sketch.
- Ensure performs equipment.
- Carry out ECI, MPI, UTM for drawwork , mouse hole, crane, all piping in aux. room , pump room , main deck.
- To prepare NDT reports and certify the result.

Aug/2015- Aug/2015

Company : Core-IRM Pte.,Ltd Singapore

Client : Transocean Siam Driller Rig

Project : NDT Inspection

Position : **Multi-Discipline Inspector <Offshore>**

Responsibility :

- Understanding specifications and NDT procedure.
- On daily basis, physically performing NDT of materials to determine, They meet established quality standards.
- To prepare and compile drawing sketch.
- Ensure performs equipment.
- Carry out MPI, UTM for inspection ring master, master bushing,

- insert, link bail, bumper, OAC crane and etc.
- To prepare NDT reports and certify the result.

Sep/2015- Oct/2015

Company : BV-Bureau Veritas Thailand
Client : Mubadala Petroleum <Jasmine Field>
Project : Lifting Gear Inspection
Position : **Multi-Discipline Inspector <Offshore>**

- Responsibility :**
- Understanding specifications of LGI and NDT procedure.
 - Perform visual checked condition, surface, welded, S/N, SWL, WLL, Brand, Size.
 - Performs Eddy Current for basket, container Pad eyes and performs MPI for master link , Shackle , Trolley , Pulley , Snatch Block.
 - Performs color code and paint on item.
 - To prepare NDT reports and certify the result.
 - Repaired painting and perform coating.

Sep/2015- Sep/2015

Company : Bureau Veritas Thailand
Client : Mubadala Petroleum <Manora Field>
Project : Lifting Gear Inspection
Position : **NDE Inspector <Offshore>**

- Responsibility :**
- Understanding specifications of LGI and NDT procedure.
 - Perform visual checked S/N, SWL, WLL, Brand, Size.
 - Performs Eddy Current for basket, container Pad eyes and performs MPI for master link , Shackle , Trolley , Pulley , Snatch Block.
 - Performs color code and paint on item.
 - To prepare NDT reports and certify the result.
 - Repaired painting and perform coating.

Aug/2015- Aug/2015

Company : Core-IRM Pte.,Ltd Singapore
Client : Transocean Siam Driller Rig
Project : Rig Move Inspection
Position : **Multi-Discipline Inspector <Offshore>**

- Responsibility :**
- Understanding specifications and NDT procedure.
 - To prepare and compile drawing sketch.
 - Ensure performs equipment.
 - Carry out MPI , PT , UTM , ET for inspection ring master, master bushing, insert, link bail, bumper, OAC crane and etc.
 - To prepare NDT reports and certify the result.

May/2015- May/2015

Company : Core-IRM Pte.,Ltd Singapore
Client : Shelf Drilling Compact Driller Rig
Project : NDT Confirm.
Position : **NDT Inspector <Offshore>**

Responsibility :

- Understanding specifications and NDT procedure.
- To prepare and compile drawing sketch.
- Ensure performs equipment.
- Visual inspection and carry out MPI confirm on tank PL9,skid beam support.
- To prepare NDT reports and certify the result.

May/2015- May/2015

Company : Core-IRM Pte.,Ltd Singapore
Client : Rig Transocean Andaman
Project : Heavy Drilling Equipment Inspection.
Position : **Multi-Discipline Inspector <Offshore>**

Responsibility :

- Understanding Drops and Rope Access and NDT procedure.
- To prepare and compile drawing sketch.
- Ensure performs rope access and NDT equipment.
- Visual inspection and carry out Eddy Current ,MPI on derrick and heavy tools store
- To prepare NDE reports and certify the result..

Apr/2015- May/2015

Company : Core-IRM Pte.,Ltd Singapore
Client : Rig Transocean Andaman
Project : Drops Surveyor
Position : **Drops Survey Technician <Offshore>**

Responsibility :

- Understanding Drops and Rope Access procedure.
- Basic Knowledge of Drilling Equipment and Functions (due to the forces induced during operation, anti-collision systems and the following potentials for dropped objects).
- Basic Knowledge of type of bolts ,nuts and washer.
- Inspection Area Drawing sketch with Microsoft Visio.
- Ensure performs rope access and equipments.
- Inspection survey with supervisor.
- To prepare photos and drawing attached with drops reports.

Feb/2015- Mar/2015

Company : Core-IRM Pte.,Ltd Singapore

Client : Rig Transocean Andaman

Project : Lifting Gear Inspection

Position : **Rope Access Lifting Gear Inspector <Offshore>**

- Responsibility :**
- Understanding LGI and Rope Access procedure.
 - Basic Knowledge of lifting equipment, functions and systems .
 - Inspection area and Drawing sketch with Microsoft Visio.
 - Ensure performs rope access and LGI equipment.
 - Inspection checked S/N, SWL, WLL, Brand, Size.
 - Performs Eddy Current for basket, container Pad eyes and performs MPI for master link , Shackle , Trolley , Pulley , Snatch Block.
 - Hard stamping on tag of item.
 - Filled reports to Supervisor.
 - Repaired painting and perform coating.

Jan/2015- Feb/2015

Company : Core-IRM Pte.,Ltd Singapore

Client : Rig Ensco 108

Project : Drops Surveyor

Position : **Rope Access Drops Survey Technician <Offshore>**

- Responsibility :**
- Understanding Drops and Rope Access procedure.
 - Basic Knowledge of Drilling Equipment and Functions (due to the forces induced during operation, anti-collision systems and the following potentials for dropped objects.
 - Basic Knowledge of type of bolts ,nuts and washer.
 - Inspection Area Drawing sketch with Microsoft Visio.
 - Ensure performs rope access and equipments.
 - Inspection survey with supervisor.
 - To prepare photos and drawing attached with drops reports.

Sep/2014- Sep/2014

Company : Beacon-Offshore

Client : Chevron Offshore Thailand

Project : Funan Filed Riser

Position : **Rope Access/ NDE Inspector <Offshore>**

- Responsibility :**
- Understanding ITP, specifications and Rope/NDT procedure
 - To prepare and compile isometric drawing sketch
 - Ensure performs rope access and equipments and follow rope access level 3
 - Visual inspection record and mark up on pipe, stud bolt, flank, vale damage
 - To carry out UTM survey and camera on piping ,pipeline circuits.
 - Performs checklist inspection reports and analysis

Aug/2014- Sep/2014

Company : Beacon-Offshore

Client : Chevron Offshore Thailand

Project : Erawan Filed Riser

Position : **Rope Access/Visual and NDE Inspector <Offshore>**

- Responsibility :**
- Understanding ITP, specifications and Rope/NDT procedure
 - To prepare and compile isometric drawing sketch
 - Ensure performs rope access and equipments and follow rope access level 3
 - Visual inspection record and mark up on pipe, stud bolt, flank, vale damage
 - To carry out UTM survey and camera on piping ,pipeline circuits.
 - Performs checklist inspection reports and analysis
 - Perform all data reports submit to AI supervisor

July/2013- Mar/2014

Company : J.S.T.

Client : Chevron Bangladesh

Project : JB/BY/MB Gas Plants

Position : **Rope Access/ NDE Inspector <Bangladesh>**

- Responsibility :**
- Understanding ITP, specifications and NDT procedure
 - To prepare and compile isometric drawing sketch
 - Ensure performs rope access and equipments and follow rope access level 3
 - Visual inspection record and mark up on pipe, stud bolt, flank, vale damage
 - To carry out UT-Scan ,UTM survey and camera on piping ,pipeline circuits.
 - Performs checklist inspection reports and analysis
 - Perform all data reports submit to Supervisor

June /2013- June/2013

Company : J.S.T.

Client : Siemens Wind Power <Ko-rat Wind turbine Farm>

Project : Repaired Turbines Blades

Position : **Blade Repair Technician**

- Responsibility :**
- Visual Inspection of blades for erosion/stress lighting strike/bird Striker and cracks.
 - Prepare the blade surface, grinding, sanding coating and painting.

- Replace mounting of Vortex generator.
- Repaired pin holes on blade.
- Ensure the photos must clear all process.
- Performs all reports to Client.

Mar/2013- May/2013

Company : J.S.Technical Services

Client : Chevron Offshore Thailand

Project : Benjamas Platforms

Position : **Rope Access/ NDE Inspector <Offshore>**

- Responsibility :**
- Understanding ITP, specifications and Rope/NDT procedure
 - To prepare and compile isometric drawing sketch
 - Ensure performs rope access and equipments and follow rope access level 3
 - Visual inspection record and mark up on pipe, stud bolt damage
 - To carry out UTM survey and camera on piping ,pipeline circuits.
 - Performs checklist inspection reports and analysis
 - Perform all data reports submit to AI supervisor

Mar/2012- Mar/2013

Company : Best Tech & Engineering LTD

Client : RCR Tomlinson LTD

Project : **FMG T155 Solomon**

Position : **QC Inspector<Structure>**

- Responsibility :**
- Daily inspection and witness, monitoring / report as per ITPs
 - Coordinate / Communicate with client's and 3rd party Surveyor
 - Monitor and assess production/contractor's workmanship quality
 - Ensure all inspection requirements are completed prior to issue/signing of release note for production or contractors
 - Monitor on erection, lifting and load-out activities
 - Reviewed NDT reports
 - Identify any incomplete items for punch listing

Jan/2012- Mar/2012

Company : Best Tech & Engineering LTD

Client : Cimeco PTY LTD

Project : **FMG Solomon**

Position : **QC/ NDT Inspector<Structure>**

- Responsibility :**
- Daily inspection and witness, monitoring / report as per ITPs
 - Coordinate / Communicate with client's and 3rd party Surveyor
 - Monitor and assess production/contractor's workmanship quality

- Ensure all inspection requirements are completed prior to issue/signing of release note for production or contractors
- Monitor on erection, lifting and load-out activities
- Reviewed NDT reports
- Identify any incomplete items for punch listing
- Carry out Ultrasonic inspection test before third party confirmed.

Dec/2011-Jan/2012

Company : Thai NDT PLC

Client : BJC Heavy Industries.,LTD.

Project : FMG Solomon Geralton Port Berth7 APLNG Upstream Phase1

Position : NDT Inspector <Freelance >

- Responsibility :**
- Understanding each project specifications and NDT procedure
 - On daily basis, physically performing NDT of materials to determine, They meet established quality standards.
 - Visual and Ultrasonic test after welding follow the AWS ,AS standard.
 - Coordinator with project supervisor and client project.
 - Compilation Ultrasonic reports to QC Inspector.

Sep/2011-Dec/2011

Company : Thai NDT PLC

Client : KITANO CONTRUCTION COPR.

Project : Solomon Islands Road Improvement <Sector>

Position : NDT Inspector <Solomon Iceland>

- Responsibility :**
- Understanding each project specifications and NDT procedure
 - On daily basis, physically performing NDT of materials to determine, They meet established quality standards.
 - Visual weld and Ultrasonic follow the AS standard
 - Compilation Ultrasonic reports to Project Engineer.

Sep/2006-Sep/2011

Company : Thai NDT PLC

Client - Project : CTEP- Phase 32/1, 32/2, 32/3, 32/4, 32/5, 32/6 & 32/7

CTEP- Phase 33/1, 33/2, 33/3 & 33/4

CTEP- Phase 34/1, 34/2, 34/3, 34/4 & 34/5

CTEP- Phase 35/1, 35/2, 35/3 & 35/4

CVX- Phase 36/1, 36/2, 36/3, 36/4, 36/5 & 36/6

CVX- Phase 37/1, 37/2, 37/3, 37/4, 37/5, 37/6, 37/7

CVX- Phase 39/1, 39/2, 39/3, 39/4, 39/5, 39/6

CVX- Phase 41/1,41/2,41/3,41/4,41/5,41/6,41/7,41/8

CVX- Phase 42/1,42/2,42/3,42/4

WHP Stage 4 Total 5 Platform, M24, M25, M26, M27 & M28

WHP Stage 5 Total 4 Platform, M29, M30, M31 & M32

**Unocal
&
Chevron Thailand**

Carigali HESS Suriya B WHP EPC
BG India - Hydra-PK & SWP 1
CPOC - Muda D MDD Deck
CTOC - Riser Platform CKR – Module 3
All Sea - Reliance (RIL) Pipeline PLET and SIV Subsea (India)
HOEC - PY 1 Field Development
PTTEP – LQ Arthit
Pearl Oil Thailand- WP-A , B2 , WPB , WPC , WPD
Unithai Ship yard - Ship Repaired
 - P2013 Pacific Class 375 <Legwell & Lower Guide>

Position : **NDT Inspector <Freelance>**

Responsibility :

- Understanding each project specifications and NDT procedure
- On daily basis, physically performing NDT of materials to determine they meet established quality standards.
- Follow the request ion from QC Inspector and Carried out Ultrasonic Testing Inspection on Cellar Deck,Upper Deck,Deck Election Platfroms And Jacket legs
- Follow the structural and tubular NDT matrix with standard NDT
- Compilation Ultrasonic reports to Co-coordinator

WORK HISTORY

Sep/2005-2006

Company : Thai Inspection & Quality Services/ARV Offshore

Client : Rontgen Technische Dienst BV<RTD>

Project : PTT 3rd Transmission Pipeline-Gulf Thai 335 KM.

Position : **Scanner Technician <Offshore in HD-60>**

Responsibility :

- Understanding each project specifications and UT/MPI procedure
- To performs Auto UT scan at Main line and Double joint
- MPI for weld repaired before Auto UT Re-scan
- Reports and records problems to Supervisor

June/2005-Aug/2005

Company : Hi Technical Services

Client-Project : **Clough Sino** - 3rd Third Stage Expansion
CUEL - Chevron Stage 3 WHP
CTCI - Central Utility
Alliance Refining Company[ARC] - Vessel No.5810

Position : **NDT Supervisor Assistant / QC Inspector**

Responsibility :

- Organize, plan and carry out all type of NDT works, including interpretation radiographic film
- Supervision of NDT activities as client requirement
- Control and audit of project quality requirement
- Co-ordination with client QA/QC representative
- Establishment and maintenance of NDT document filling system.

Sep/2004- May/2005

Company : Wood Group Heavy Industrial Turbine Thailand Co.,Ltd

Client : Glow Group, EGAT and Wood Group [Dundee in Scotland]

Project : Gas Turbine Repair

Position : QC Inspector

Responsibility : Received gas turbine part by customer and identity number on part and damaged analyze part and visual inspection, Dimension checked, Fluorescent penetrant inspection, Dimension for repair, Welding and grinding for repair, Re-dimension checked, Re-fluorescent Penetrant inspection if inspection complete and after prepared final checked process and final all document,reporting to customer.

Sep/2003- May/2004

Company : United Inspection Services

Client-Project : K.Thai Co.,Ltd - Nova P/M Steel
Apex Chemical Co.,Ltd - Shut Down
Zeon Chemical Thailand - Shut Down
Thai Rotary Construction - 5th Gas Separation Plant
Glow IPP - Boiler Tubes
Scan-Inter - Fuel Pipe Transportation
- NGV 17 Stations
Glow SPP 1 - Boiler Tubes
Vattanaphaisal Engineering Co.,Ltd - Thai Olefins Mini turn around
CTCI - Thai Olefins Company - Tank No.04E-7395
3SVR.,Co.Ltd - Kohler / PTT Plant
- Thai Copper/PTT/PLC-ARAE0661
REPCO - CoCo 2
Riverpro Public & Paper Co.,Ltd - Roller/Boiler Tube Thickness
Nasco - Buttner GmbH/Rayong Particle Board Co.,Ltd
- Vanachai II
Sahacharoen Testing - EP 215 Polymerization Reactor
EIG Co.,Ltd - T2
Italian Thai Development - QCP Plant
Nasco/Samsung - 5th Gas Separation Plant
Super Central Gas Co.,Ltd - NGV Mother Station Hot Tap[NI-MIT-MAI]
Expert Team/Unithai Shipyard - Lifting Ears
Thai Lube Base Co.,Ltd - Shut Down Column C-101
ASM Co.,Ltd - G1
Global Architectural Co.,Ltd - Fabrication Columns

Position : Sale Eng./NDT Inspector

Responsibility :

- Understanding each project specifications and the NDT procedure
- Ensuring non-destructive testing records are maintained for each project
- Carried out UT,MT,PT,RT,UTM and Hydro Testing as per client's
- Compilation NDT reports as per client's requirement

Dec/2002-Aug/2003

Company : PAE Technical Services

Client-Project : United Inspection Services - NGV Mother Station Hot Tap[PTT].
Meyer Co.,Ltd - Shut Down Roller.
BJC - Pipe Line Transmission .
Shi Asia Co.,Ltd - Thai Carbon Black.
Alliance Refining Company - Shut Down.
Italian Thai Development - Suwannaphumi International Airport.

TN Joint Venture[ASIATEC] -Water Transmission Tunnel Under Ground.

- Position :** **NDT Inspector**
- Responsibility :**
- Understanding each project specifications and the NDT procedure.
 - Ensuring non-destructive testing records are maintained for each project.
 - Carried out UT,MT,PT,RT as per client's.
 - Compilation NDT reports as per client's requirement.

Dec/2001-Nov/2002

Company : Si -No Thai Engineering & Construction Co.,Ltd

Client - Project : **STP & I - Borwin Power Plant**
- Woodsite

Position : **QA/QC Technician**

Responsibility : Visual before/after welding of pipe SS,CS Ø 1"-6" and estimation of steel Structural and take-off materials for fabrication, performance & checking of shop drawing Piping, list and full sizing lay-out, full respond and supporting of shop drawing design for Fabrication and site erection and final review document report x-ray.
