After finishing the 2024 season as a wind turbine blade technician in the Siemens blade factory. I am now looking forward to starting the 2025 season, I have a strong background in maintaining and repairing wind turbine blades to keep operations running smoothly. With a focus on safety and quality, I am skilled in conducting inspections, performing repairs, and implementing preventative maintenance measures. My willingness to learn and dedication to renewable energy makes me a valuable team member in the wind energy industry.

I am a highly motivated, pro-active individual that strives to succeed in any given environment and I am always keen to learn and progress personally and professionally. I am confident and an effective communicator, therefore work well within a team or individually, I am an extremely organised and reliable person. I am approachable and dependable. I aim to complete tasks to the highest quality and within efficient time scales. I am able to manage high workloads, prioritise my own workload, and can easily adapt to different working environments. I am confident in my own opinions and abilities and I'm not afraid to take charge of situations that I feel in doing so.

Willing to relocate: Anywhere

## Work Experience

---

### **Blade Technician**

GEV Wind Power-Siemens Blade Factory

March 2024 to Present

In my role as a wind turbine blade technician, I am responsible for inspecting, maintaining, and repairing Siemens wind turbine blades to ensure they are functioning efficiently. This involves conducting inspections, making necessary repairs, and working with a team to troubleshoot any issues that may arise. I also focus on preventative maintenance to prevent future problems and adhere to safety guidelines at all times.

### **Multi Drop Delivery Driver**

Geofrac Ltd-Gateshead

April 2023 to January 2024

I delivered parcels for Amazon through Geofrac Ltd in a 3.5T van, I worked to a tight schedule with keeping high standards on a day to day basis.

This role was extremely fast paced so my organisational skills were proven on a day to day basis, whilst also hitting my day to day targets.

### **Warehouse Manager**

Plumbing and heating supplies-Gateshead

October 2021 to April 2023

I worked within a team in the warehouse, I ensured that's goods in are correct and in pristine condition.

I was also in control of all goods out, I ensure that the correct items are picked to go out to the customer.

I participated in making sure stock levels are correct at all times as only what was needed would be ordered in so stock levels were to be accurate to avoid duplicate ordering or items not actually being available.

I dealt with customers face to face on a day to day basis and showed my excellent customer service along with great communication skills.

## **Deputy Manager**

Aldi

August 2016 to October 2021

I started Aldi as a trainee Deputy Manager with no guaranteed promotion. I started from scratch having never worked in retail before, I showed willing and hard work whilst proving to be a fast learner. I underwent a retail management course in which I completed coursework and practical task to gain the qualification. I am responsible for the store whilst being covering manager. This can entail completing the stores stock orders to make sure we have enough stock for the day, distributing tasks out to my staff, ensuring all stock is available to customers, dealing with any difficult customers. Taking control of the safe key, dealing with the cash from the tills, being accurate in doing so money doesn't get lost or miscounted. I make sure that myself and my team adhere to company policy and procedures. I take account for inventory of the shop making sure all stock levels are correct and making sure no stock is being lost to theft or incorrect procedures with regards to wastage/sale of products.

## **Apprentice Bricklayer**

Carillion

September 2015 to August 2016

I had no experience as bricklayer but showed quick learning and grasped the trade. I completed theory and practical tests to gain my NVQ level 2 in bricklaying. I was one of the first trainee's to be sent to placement due to my hard-working attitude and skills shown. Whilst on site I was reliable and dependable in helping the multimillion project be to a high standard within time scale.
