WINDA ID : SK065035GB

IRATA No : 1/222310

I completed my IRATA level 1 certification, with the intention of starting a career within the Rope Access industry preferably in an Offshore environment. Since passing my L1 assessment, I have secured a role as a Rope Access Technician at Vertical Access based in Greater Manchester covering a nation wide area. I have predominantly been working on the buildings and structures side of the company carrying out inspection and maintenance works. I am also required to help out with Geotechnical works. I have a great understanding and knowledge of health and safety regs, risk assessments and method statements. I am self motivated and have the ability to work alone and be relied upon. I equally thrive while working in a team where I can both follow instruction and delegate work. I have a full driving licence and UK Passport. I am willing to travel and work long rotations away from home as and when required.

IRATA Level 1 – GWO BST – HUET with CA-EBS – OGUK medical

Professional Experience

Vertical Access – 07/23 – Current

Rope Access Technician
