## OBJECTIVE

---

Blade Repair Technician GWO – IRATA L3

## SYNTHESIS OF QUALIFICATIONS

---

I have a VISA for United States and Canada. I am fully available to travel, change state or country.

With technical training in Blade Repair, Industrial Automation and Equipment Inspection, and extensive experience in Industrial Painting, Repair, Maintenance, Rigger, Hose and Cylinder Replacement, and Structural Integrity Inspection. Throughout my career, I have provided technical support to large oil units such as SBM, Modec and Petrobras units.

Certified as a Blade Repair Technician and IRATA Level 3, with experience in inspection, maintenance and repair. I am looking to join a technical team where I can apply my skills in rope access and composite repair, contributing to operational continuity and optimization of maintenance processes, with a focus on efficient and high quality repair solutions.
