Rope Access Supervisor | Non-Destructive Testing Inspector | IRATA 3 Rope Access Technician | Technical Maintenance | Equipment Inspection | Lead Inspector | WINDA ID: AD062002BR

## Knowledge Synthesis

---

- ✓ Expertise in inspecting lifting mechanisms, ensuring that they are in full working order and comply with safety standards.
- ✓ General maintenance of equipment and structures, ensuring that everything is in good operating condition.
- ✓ Carrying out non-destructive tests to assess the integrity of structures and equipment, using advanced techniques and specialized equipment.
- ✓ Detailed inspection of falling objects to prevent safety incidents, identifying and mitigating possible risks.

## Academic education

---

- ✓ Mechanical Technician (Active CFT) | Technical School Status (2022)
- ✓ Complete High School | Francisco Porto de Aguiar Municipal School in Arraial do Cabo (2002)

## IT and Systems

---

- ✓ MS Office | Windows | Visio | Excel | Word

## Professional trajectory

---

### PRINER Serviços Industriais S.A.

#### Integrity Inspector II – 07/2024 – Current

- Carrying out non-destructive tests to assess the integrity of structures and equipment, using advanced techniques and specialized equipment.
- General maintenance of equipment and structures, ensuring that everything is in good operating condition.
- Execution of rope access, including preparation, planning and execution of activities in difficult-to-access locations

### SGS Argentina

#### IRATA Supervisor 3 – 01/2024 – 05/2024

- Carrying out non-destructive tests to assess the integrity of structures and equipment, using advanced techniques and specialized equipment.
- General maintenance of equipment and structures, ensuring that everything is in good operating condition.
- Execution of rope access, including preparation, planning and execution of activities in difficult-to-access locations.

### OES Group

#### Supervisor IRATA 3 – Day Rate L3 | 07/2023 – 09/2023

- Carrying out non-destructive tests to assess the integrity of structures and equipment, using advanced techniques and specialized equipment.
- Inspection lifting mechanisms, ensuring that they are in full working order and comply with safety standards.
- General maintenance of equipment and structures, ensuring that everything is in good operating condition.
- Execution of rope access in difficult to access locations, following strict safety procedures and IRATA protocols.
- Management and execution of an international contract with Valaris DS-08 in Puerto Del Carmen, Las Palmas (Spain), including all activities related to non-destructive testing, inspections and maintenance on ropes.
- Management and execution of an international contract with Stena DrillMAX in Puerto Del Carmen, Las Palmas (Spain), with destination navigation to Guyana, covering all rope access operations, inspections and maintenance in accordance with international safety standards.

### Testtorque do Brasil

#### Supervisor IRATA 3 – II | 12/2022 – 07/2023

- Carrying out non-destructive tests, including the use of specialized techniques and equipment to assess the integrity of structures and equipment.
- Execution of rigging maneuvers, involving the planning and safe execution of cargo and equipment movement.
- Carrying out rope access, covering the planning and execution of activities in difficult-to-access locations, following strict safety standards.
- Detailed inspection of lifting equipment (Lifting Gear) to ensure it complies with safety regulations and is ready for use.
- Maintenance on lifeboats, rescue boats and davits (LSA), ensuring that these vessels and safety equipment are in ideal conditions for use in emergency situations.
- Complete management of contracts with renowned companies, such as Modec, SBM and PetroRio, covering compliance with contractual terms, deadlines and safety standards in all operations related to rope access, inspections and maintenance.

## **Qualitech IRM**

### **Inspetor II – IRATA 3 | 06/2021 – 12/2022**

- Supervision of teams as a leader, providing guidance and direction to ensure the safety and efficiency of operations.
- Execution of rope access, including preparation, planning and execution of activities in difficult-to-access locations.
- Carrying out non-destructive tests to assess the integrity of structures and equipment, using specialized techniques and equipment.
- Detailed inspection of falling objects to prevent safety incidents, identifying and mitigating possible risks.
- Strict inspection of lifting equipment (Lifting Gear) under a fixed contract with Ocyan, ensuring that they comply with established safety standards.
- Comprehensive contract management with renowned companies, including Modec and Ocyan, ensuring compliance with contractual terms, deadlines and safety standards in all operations related to rope access and safety inspections.

## **OES Group**

### **Supervisor IRATA III | 01/2014 – 07/2021**

- Supervision of work teams on rope access projects.
- Execution of non-destructive tests to ensure the integrity of structures and equipment.
- Strict inspection of dropped objects to prevent safety incidents.
- Thorough inspection of lifting equipment (Lifting Gear) to ensure compliance with safety standards.
- Carrying out rigging maneuvers with a focus on safety and operational efficiency.
- Comprehensive contract management with a variety of companies, including Modec, SBM, Ocyan, Noble, Altera, SeaDrill, Ventura, Constellation and PetroRio, ensuring compliance with contractual terms and deadlines, as well as customer satisfaction in all aspects of rope access operations and safety inspections.

## **Courses and certifications**

---

- ✓ Industrial Climber Course (Iratat Level 3) | Brazil Rope 29/06/2024 (Validity 28/06/2027)
- ✓ GWO – BST (Basic Safety Training) Alto Sur (Argentina – Validity 02/2026)
- ✓ Equipment Inspection | INT Courses and Training Ltd (2023)
- ✓ Operating Regulations and Lifting Equipment – LOLER – (09/2023) – Validity (09/2025) Relyon Nutec
- ✓ Valve Inspection | INT Courses and Training Ltd (2023)
- ✓ NR-13 | Int Courses and Training Ltd (2023)
- ✓ Industrial Design | THINK Courses (2023)
- ✓ Steel Rope Course (ABNT NBR ISO 4309) | School of Movement (2023)
- ✓ Basic Platform Security Course (CBSP) | Relyon nutec (Expiration date 2024)
- ✓ T-Huet Course (Opito) | Relyon nutec (Expiry date 12/2026)
- ✓ CA-EBS Course (Opito) | Relyon nutec (2021)
- ✓ Oil & Gas Kingdom United (OGUK Medical) (Expiry date 07/2025)
- ✓ Liquid Penetrant Course (ASNT) | Bpiv School
- ✓ Magnetic Particle Course (ASNT) | Sagatech
- ✓ Thickness Measurement Course (ASNT) | Sagatech
- ✓ NR-33 | 16h | Confined Space INBRAEEP (2021)

- ✓ NR-37 Basic | Evo HSS (2022)
- ✓ NR-37 Advanced | Evo HSS (2022)
- ✓ MS Office | Windows | Visio | Excel | Word
