Profile

I am rope access technician with IRATA Level 3. As an IRATA technician I have worked on GSM projects, assembling GSM towers, making swaps and strengthening existing towers and also I took part in the offshore project for "Climb Partner" on Horns Rev 3 in Denmark and Deutsche Bucht. Also I was working for Global Wind Service on Merkur and Deutsche Bucht offshore wind farm as an R A T doing electrician and mechanic scope (service man). Last three years I'm working with Semco Maritime on O&R sector.

Also I am qualified part two scaffolder with 9 years experience. I am trustworthy and hard working person who is ready to undertake new challenges. I am a team player, but I am happy to take initiative if necessary. I have worked on variety projects including industrial scaffolding, railways jobs (PTS qualification), motorways jobs (bridges and viaducts), and domestic work. Lately I'm working offshore, wind farms and oil and rig platforms.
